Time Management

Communication skills

PROJECTS

GE Software Upgradation [Ag Office, Patna] **Aug 2024- Oct 2024**

Implemented a digital signature solution, streamlining document approval processes. Additionally, transitioned document delivery from traditional speed post to efficient email, and enhanced report generation capabilities by modifying RPT files and integrating a rich text editor.

Financial Report for Bihar [Ag Office, Patna] **Mar 2024- Jul 2024**

The financial year report of Bihar State was created utilizing Jasper Reports. This tool facilitated the efficient generation of comprehensive reports, providing insights into the state's financial performance over the designated period.

HRMS [Sigma e Solution, Jamshedpur] **Oct 2023- Mar 2024**

This web application, developed using HTML, CSS, jQuery, and SQL, streamlines the process of calculating and disbursing employee wages, encompassing deductions and tax calculations. It effectively handles employee data management, time tracking, attendance monitoring, and ensures adherence to legal and tax regulations.

Vehicle Tracking System [Interlinkfoods, Ranchi] **Jun 2023-Nov 2023**

I contributed to the development of the web module for a system enabling drivers to capture and upload pictures using their phone while delivering food packets in anganwadi kendra, Additionally, the module allows for user tracking, trip assignment, data management, and report generation on the web platform.

Personal Portofolio [Jamshedpur] **Aug 2023- Sep 2023**

It is my web-based portfolio, crafted with HTML, CSS, and jQuery. Here, you can explore my project, skills and certification.

Quizza [RTCIT, Ranchi] **Feb 2023- May 2023**

This Android application was developed using Android Studio with Java, leveraging Firebase as the database. It presents users with multiple-choice questions, each accompanied by a time limit for response. Users are getting rewards for correctly answering questions.

G&T Feedback System [RTCIT, Ranchi] **Aug 2022- Feb 2023**

This is a web based application where user can see the review of any product and also they will be able to give review.

Project Management System [SNTI, Jamshedpur] **May 2022- Jun 2022**

It is a window based database management system which helps several aspects of projects and includes planning and organizing. It is a java application and developed using Apache netbeans IDE 13 and MYSQL database.

INTERNSHIP

Tata Steel (SNTI Jamshedpur)

Developed a software module based on Windows for database management system
